SOHN has meant quality for over 60 years

March 18th, 2020

During this time of uncertainty and rapidly changing circumstances, Sohn Manufacturing is working internally to ensure that we do everything possible to keep our staff in a safe and healthy working environment. Sohn is currently modifying staff hours so that we can maintain that environment along with continuing to meet the needs of our customers. As of today, we have not experienced any supply chain issues, however we understand that this status can change fast. We will continue to keep our customers and vendors up to date as we deal with the COVID-19 impact on our local and global community.

Effective March 19th, 2020: Until further notice, our office hours will be 7:00 AM-3:30 PM.
